

Highland

September 2022

Our Public-Private Partnership Model

- 1 Plan** We design and implement the entire project in partnership with school and community leaders.
- 2 Budget** We create a subscription plan that includes all your buses, chargers, and depot improvements.
- 3 Build** We procure the school buses and manage the construction of depot upgrades.
- 4 Train** We train your team to use and maintain your fleet.
- 5 Charge** We charge the school buses during off-peak hours, ensuring a “full tank” before each trip.
- 6 Maintain** We provide a complete service plan, reimbursing for all repair costs, including parts and labor.

Thank You
