Plant/EV Center

A photograph of a large, modern, white industrial building with a dark horizontal band across the middle. The building is situated behind a landscaped area featuring a green lawn, a low green hedge, and several trees. A paved road or parking lot is in the foreground, with a utility pole and a signpost visible. The sky is clear blue with a bright sun flare at the top center.

CENNTRO

A wide-angle photograph of a modern, bright office lobby. The ceiling is a white grid with several recessed rectangular light fixtures. The floor is covered in light-colored, wood-grain laminate. On the left, there is a long, low reception desk with a white top and grey panels. The walls are primarily glass, offering a view of the outdoors. In the center-right, there is a circular seating area with dark-colored sofas and armchairs. A small potted plant sits on a table in the middle of the seating area. The overall atmosphere is clean, professional, and well-lit.

FLA EV Center

PRODUCT OVERVIEW

Cenntro Automotive

www.cenntroauto.com

CENNTRO

Logistar 100

PURPOSE BUILT FOR THE
DEMANDS OF THE CITY.

The Logistar 100 is a light electric commercial van. Compact but designed to offer best-in-class cargo space with multiple entry points at the side and rear of the vehicle. It is versatile, easy to maneuver and at home in urban areas.

Logistar 200

Multi-purpose, all-electric light commercial vehicle (eLCVs); N-1 Class urban delivery vehicle for the EU market.

Logistar 200 is a multi-purpose, light electric commercial vehicle customized for transporting light goods in urban areas. Logistar 200 has a one-ton payload and a cargo space of 247 cubic feet (when using a cargo box). Logistar 200 can be used in three ways: cab and Cenntro iChassis only as well as cargo box and van. All adopt the same Cenntro iChassis and front cab (cockpit).

Logistar 260
READY FOR ANY CHALLENGE.

Logistar 300

Ready to Get the Job Done.

Cenntro's LS300 sets a new benchmark for all electric commercial work trucks. With 370 cubic feet of storage space and a payload of 3307 lbs., the LS300 ready to meet the demands of any job-site or service: parcel delivery, contractor, or agriculture.

Logistar 400

All electric, purpose-built Class 4 vehicle designed to serve the last-mile urban delivery market.

LS 400 - Launched in North America

CENNTRO

- The LS 400 is an all electric Class 4 truck, 14,400 GVWR perfectly suited to operate effectively in last-mile & service logistics.
- Equipped with two 40 kWh battery packs for longer cycle life and increased safety.
- DC Fast Charge-CCS Combo
- 128 Daily Mileage
- Chassis Cab

LM864H

Brings Zero Emissions for the Long Range.

The LM864H is a 6×4 semi-tractor representing Cenntro's first entry into hydrogen fuel cells and its first heavy-duty truck. The semi-tractor's electric motors are fully powered by high-efficiency sustainable hydrogen fuel cells with eight 210-liter banks that convert hydrogen into electric power by combining it with oxygen, producing only water as its only byproduct. The LM864H will be available in 3Q of 2023.

Metro

Convenient multi-purpose transportation vehicle and suitable for city logistics and services

About us

CENNTRO is dedicated to advancing technology with you in mind. We pride ourselves on being attentive to our customer's needs and strive to always move forward by pushing the boundaries of electric vehicles. Our EVs are not only environmentally driven but also geared towards fostering a community to promote making an impact for people and the planet.

Utility
