

Businesses Are Ready To Go Electric

100+ businesses support strong standards to expand availability of zero emission heavy-duty vehicles, reduce costs, and ensure the U.S. remains globally competitive in the transition to clean transportation.

129 U.S. businesses of all sizes and sectors

More than **\$245** billion in annual revenue

More than **\$85** billion in assets under management

Employees in all **50** states

Members of the Ceres Corporate Electric Vehicle Alliance own and operate more than 2.7 million fleet vehicles and plan to collectively procure more than 330,000 zero emission vehicles by 2026 — strong standards will ensure the U.S. market is able to meet that demand.
